PROFESSIONAL SUMMARY

Salesforce Engineer with professional experience developing Salesforce applications using Flow, Apex, and LWC. Experienced in Batch Apex, external API integrations, error handling, testing, and client communication. JLPT N1 with four Salesforce certifications.

EDUCATION

Northwestern University, Medill School of Journalism
B.S. in Journalism, Integrated Marketing Communications Certificate, Advanced Asian Languages (Japanese) Minor
Graduated: June, 2021

EXPERIENCE

Salesforce Engineer

Actbe Inc. — Osaka, Japan: September 2025–Present

- Develop and maintain Salesforce applications using Flow, Apex, and LWC.
- Implement Batch Apex for data aggregation, synchronization, and automated business processes.
- Develop HTTP callout integrations between Salesforce and external systems.
- Investigate and resolve system errors and defects.
- Perform testing, release support, and maintenance of existing functionality.
- Communicate with clients regarding requirements, questions, and technical issues.

English Instructor/ Educator

Various locations across Japan: 2021-2025

- Designed and delivered lessons to students aged 3–15 across multiple schools and private academies.
- Collaborated with Japanese staff in bilingual environments; adapted lessons based on student needs and learning goals.
- Participated in cross-cultural work environments and managed classrooms independently.
